FEDERAL COMMUNICATIONS COMMISSION
OFFICE OF THE SECRETARY

BEFORE THE
FEDERAL COMMUNICATIONS COMMISSION
WASHINGTON, DC 20554

In the Matter of)
)
Amendment of Section 73.202(b)) MM Docket _____
Table of Allotments)
FM Broadcast Stations) RM No. _____
(Albemarle and Indian Trail,)
North Carolina))

To: Chief, Allocations Branch
Policy and Rules Division
Mass Media Bureau

PETITION FOR RULE MAKING

Susquehanna Radio Corp. ("SRC"), licensee of Station WABZ(FM), Channel 265A, Albemarle, North Carolina, by its counsel, hereby requests a change in community of license to specify Indian Trail, North Carolina as its first local service and the modification of Station WABZ's license, accordingly. As will be demonstrated, a grant of this proposal will provide several public interest benefits. In support hereof, SRC states as follows:

I. Technical Analysis

1. As demonstrated in the attached Technical Exhibit prepared by duTreil, Lundin & Rackley, Inc., the reallocation of Channel 265A from Albemarle to Indian Trail, North Carolina can be made consistent with the Commission's technical requirements and provide Indian Trail with the required 70 dBu signal. Station WABZ currently operates as a 3kW Class A facility with three significant pre-existing short spacings. The relocation of Station WABZ at a new site will eliminate

two of the three grandfathered short spacings entirely and substantially reduce the third short spacing while completely eliminating the pre-existing interference to all three stations.

2. Station WABZ is currently short spaced as follows:

| Station | Short Spacing | |
|--------------------------|---------------|----------|
| | Before | After |
| WKXU(FM), Burlington, NC | 72.54 km | 28.11 km |
| WIFM-FM, Elkin, NC | 6.88 km | ---- |
| WHS�-FM, High Point, NC | 21.35 km | ---- |

See Figures 1A and 1B of the Attached Engineering Exhibit.

3. Thus this proposal will entirely eliminate two pre-1964 grandfathered short spacings and substantially reduce another pre-1964 grandfathered short spacing (to WKXU) by 44.43 km. In addition, existing interference (54 dBu and 60 dBu contour overlap) in two cases would be eliminated. See Figure 1C of the Engineering Exhibit. The interference area that will be eliminated encompasses 103 km and 1,259 persons to WKXU and 8 km and 1,224 persons to WHSL.

4. The complete elimination of two long standing short spacings and the substantial reduction of short spacing to a third station has traditionally been a matter of great importance to the public interest. See e.g., Eatontown, Point Pleasant, and Red Bank, New Jersey 5 RR 2d 1762 (1965) citing Third Further Notice of Proposed Rule Making in Dkt 14185, FCC 64-10, at para 5. In the community of license context, the Allocations Branch has stated “that we will consider waiving strict application of Section 73.207 in limited circumstances, provided that no new short spacings are created, no existing short spacings are exacerbated, and the potential for interference between the currently short spaced stations is not increased. Newnan and Peachtree City, Georgia, 7 FCC Rcd 6307 (1992) citing Eatonton and Sandy Springs, Georgia and Anniston and Lineville, Alabama, 6 FCC Rcd 6580 (1991), application for review dismissed 12 FCC Rcd 8392 (1997),

application for review dismissed 13 FCC Rcd 2104 (1998)¹ Unlike the Newnan case the proposal here is to move away from the short spaced stations and provide a large net gain in the elimination of interference to three stations.

II. Change in Community of License

5. SRC desires to change the community of license from Albemarle to Indian Trail, North Carolina under the prerequisites set forth in Amendment of the Commission's Rules Regarding Modification of FM and TV Authorizations to Specify a New Community of License, 4 FCC Rcd 4870 (1989), recons. granted in part, 5 FCC Rcd 7094 (1990). First, the proposed use of Channel 264A at Indian Trail is mutually exclusive with the use of Channel 265A at Albemarle. Second, Indian Trail (population 1,942, 1990 U.S. Census) is preferred under the Commission's allotment priorities because it would receive a first local service (Priority 3) while Albemarle (population 14,939) will continue to have 2 AM stations -- WSPC (1010 kHz) and WZKY (1580 kHz) licensed to it (Priority 4). See Revision of FM Assignment Policies and Procedures, 90 FCC 2d 88 (1982). Thus Albemarle will not be deprived of its only local service.

6. Indian Trail is located in the Charlotte Urbanized Area. Therefore, a showing of independence is provided herein. See Faye and Richard Tuck 3 FCC Rcd 5374 (1988). The Commission will consider eight factors in assessing the independence of a specified community: (1) the extent to which the community residents work in the larger metropolitan area, rather than the specified community; (2) whether the smaller community has its own newspaper or other media that covers the community's local needs and interests; (3) whether community leaders and residents

1. Cf. Sugar Hill and Toccoa, Georgia (NPRM) 13 FCC Rcd 17750 (1998); Killeen and Cedar Park, Texas (NPRM) 13 FCC Rcd 18790 (1998) and Fremont and Holton, Missouri (NPRM) 13 FCC Rcd 18838 (1998) with respect to stations which are not changing their sites and therefore merely maintaining existing short spacings.

perceive the specified community as being an integral part of, or separate from, the larger metropolitan area; (4) whether the specified community has its own local government and elected officials; (5) whether the smaller community has its own telephone book provided by the local telephone company or zip code; (6) whether the community has its own commercial establishments, health facilities, and transportation systems; (7) the extent to which the specified community and the central city are part of the same advertising market; and (8) the extent to which specified community relies on the larger metropolitan area for various municipal services such as police, fire protection, schools, and libraries. *Faye and Richard Tuck, supra* at ¶ 36 (1988). All eight factors need not favor the applicant; however, if a majority of the factors demonstrate that the specified community is distinct from the urbanized area, the Commission will treat it as an independent community. *Id.*; *Parker and St. Joe, Florida*, 11 FCC Rcd 1095, ¶¶ 9-11 (1996) (finding that the proposed community was independent, although it lacked its own telephone directory and local newspaper, and was included in the urbanized area's market by Arbitron); accord *Jupiter and Hobe Sound, Florida*, 12 FCC Rcd 3570, ¶ 3 (1997) (citing *Parker and St. Joe, Florida*).

7. In this case, a majority of the eight factors unquestionably demonstrate that Indian Trail is separate and independent from Charlotte:

(1) *U.S. Census Bureau Data Indicates that the Majority of Indian Trail Residents do not Work in Charlotte.* According to 1990 U.S. Census Bureau Data, 11.3% of the employment-age residents of Indian Trail work in Indian Trail. A total of 22.2% of its residents work in Union County (including Indian Trail) and less than half of its residents, 46.5%, work in Charlotte. *See Exhibit 1.*

(2) *There is a Newspaper that Covers the Needs and Interests of Indian Trail.* While Indian Trail does not have its own newspaper, the town is served by the *Enquirer Journal*, which is

published Tuesday through Sunday. According to an employee at the paper, subscribers are primarily located in Union County and the paper does not focus on events in Charlotte, although it may cover some major events. The circulation for the towns of Indian Trail, Weddington and Stallings is 2,400. In addition, Indian Trail has established its own webpage on the Internet at <www.indiantrailonline.com>. See Exhibit 1. This webpage includes information about the community and provides a means for local businesses to advertise. Moreover, residents of Indian Trail may receive cable television through Cablevision of Monroe, which does not provide cable service to Charlotte.

(3) *Community Leaders and Residents Perceive Themselves as Separate From Charlotte.*

Indian Trail was incorporated in 1907. Indian Trail began as an outpost along an Indian trading trail that extended from Concord to the Waxhaw Indian settlement near present-day Waxhaw. Scotch-Irish and German settlers moved into the area before the American Revolution. The Central Carolina Railroad tracks laid through the area in 1874 helped make the community a distribution center for cotton and other goods. According to 1990 U.S. Census Data, the population of Indian Trail is 1,942. According to Union County, where Indian Trail is located, the population of Indian Trail in 1996 was approximately 6,000, due to the town's annexation of land to the east away from Charlotte. See Exhibit 1.

(4) *Indian Trail Has Its Own Local Government and Elected Officials.* Indian Trail's town government functions independently of Charlotte. It has a Council-Manager form of government, run by an elected Mayor, five elected Council members, and a Town Manager. There are approximately five full-time and one part-time town employees, including the Town Clerk, Finance Officer, and Planning Director. Services provided by the town government to the residents

of Indian Trail include planning and zoning services and residential garbage collection. Water and sewer services are provided by Union County Public Works, not the city of Charlotte.

(5) *The Town of Indian Trail Has its Own Zip Code and is Served by a Telephone Book that Separates Indian Trail White Pages from Charlotte White Pages.* The zip code for Indian Trail is 28079. *See Exhibit 1.* The U.S. Postal Service operates the Indian Trail Post Office to service the area. Alltel publishes a telephone directory that includes residential and business listings for Indian Trail. *See Exhibit 1.* Although this directory also includes listings for Charlotte, the white page business and residential listings for Charlotte are in a separate portion of the directory than the white pages for Indian Trail. In addition, Indian Trail has its own three digit telephone exchange prefix of 821. *See Exhibit 1.*

(6) *Indian Trail Has Numerous Commercial Establishments and Its Own Health Facilities.* There are numerous businesses located within Indian Trail. *See Exhibit 1.* A number of these businesses identify with the community by using “Indian Trail” in their name, for example: Indian Trail Animal Hospital; Indian Trail Barber Shop; Indian Trail Concrete; Indian Trail Glass, Inc.; Indian Trail Landscaping, Inc.; Indian Trail One Hour Photo; Indian Trail Optical; Indian Trail Pharmacy; Indian Trail Small Engine Service; Indian Trail After School Day Care; Indian Trail Athletic Association; Indian Trail BP; Indian Trail Ace Hardware; Indian Trail Dental Center; Indian Trail Eye Clinic; Indian Trail Mining, Inc.; Indian Trail Imports; Indian Trail Specialties; and Indian Trail TV Sales & Service. The Indian Trail Business Park, which contains 80 acres of land, is also located in the town. In addition, Indian Trail is home to the 300,000-square-foot Harris Teeter perishables warehouse, where the supermarket chain moves 20 million cases of goods each year.

Medical services are available for community residents at the Indian Trail Medical Clinic and dental services are offered by the Indian Trail Dental Center. There is also an Indian Trail Eye Clinic. Veterinary services are available at the Indian Trail Animal Hospital.

Edna Love Park, operated by the Indian Trail Athletic Association, stays busy with sports leagues. It offers playgrounds, picnic areas and ballfields. Indian Trail also has a public 18-hole golf course.

Cultural activities include the Indian Trail Art Day in the Spring, a day-long celebration of the arts. There is an Indian Pow Wow the first weekend in October at the Indian Trail Elementary School where members of the community can learn more about Native American arts and culture. Activities include crafts, foods, exhibitions, dance competition and trading booths. The annual 4th of July parade enjoys a lot of community support.

Indian Trail is also home to a number of religious and civic organizations. There are over twenty churches located in Indian Trail, including Indian Trail Presbyterian Church (a rock building constructed in 1913), Indian Trail United Methodist, Grace Baptist Church, First Baptist Church of Indian Trail, Lighthouse Family Church, Central Baptist Church, Kingdom Hill of Jehovah's Witnesses, Unity Baptist Church and New Hope Apostolic Church. According to a town employee, civic organizations in Indian Trail include the Veterans of Foreign Wars, Rotary Club, Civil Air Patrol, Lions Club, Lioness Club, Boy Scouts and Girl Scouts.

(7) *Extent to which the community and the central city are part of the same advertising market.* There are several different advertising options available to businesses in Indian Trail that will enable them to reach the residents of Indian Trail and which do not involve Charlotte media sources. They may advertise in the Enquirer Journal, on the Town of Indian Trail's webpage, or on Cablevision of Monroe. This clearly shows that the residents of Indian Trail do not need to travel

to Charlotte or seek out Charlotte media sources in order to find out what is happening in their community.

(8) *Indian Trail Has Its Own Library, and its Police and Fire Protection are Provided Independent of Charlotte.* Reading materials are made available to the community by the Indian Trail Library, which contains approximately 11,000 volumes. This library is a branch of the Union County Public Library System, which is separate and independent of the Public Library System of Charlotte and Mecklenberg County. The Union County Public School District, which includes Indian Trail Elementary School, provides public education from kindergarten through the twelfth grade. According to an employee of Indian Trail Town Hall, two elementary schools, one middle school and one high school are located in Indian Trail. Indian Trail is also home to Metrolina Christian Academy. Indian Trail contracts with the Union County Sheriff's Department for police service. It receives fire protection services from three different volunteer fire departments, all of which are located in Union County and are independent of Charlotte fire departments.

III. First Local Service Preference

8. In addition to the showing of independence offered by SRC, the Commission considers two other factors under the Tuck analysis -- signal population coverage and size and proximity of the suburban community relative to the central city. As indicated, the proposed 70 dBu contour will place a signal over only 18% of the Charlotte Urbanized Area and only 2% of Charlotte.

9. Furthermore, Indian Trail is located in another county (Union) at the furthest portion of the Urbanized Area from Charlotte and separated by several communities including one (Stallings) in Union County. The distance between Indian Trail and Charlotte is 23 kilometers.

IV. Other Public Interest Factors

10. The Engineering Exhibit states that the proposed 60 dBu contour at Indian Trail will result in a gain in population from the existing 79,643² to 427,165 persons which is a net increase of 347,522 persons. The Engineering Exhibit also demonstrates that the loss area will continue to receive at least five aural services. See Figures 3 and 4. See e.g., Atlantic and Glenwood, Iowa 10 FCC Rcd 13160 (1995).

11. SRC hereby states that should the Commission approve the change in community of license, it will apply for Channel 265A at Indian Trail and construct the facility as expeditiously as possible.

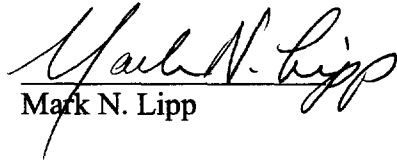

V. Conclusion

12. This proposal offers several public interest benefits -- a first local service to the rapidly growing community of Indian Trail, the complete elimination of two pre-1964 grandfathered short spaced stations, a large reduction in short spacing and elimination of interference to a third, and a large net gain in population. Thus SRC urges the Commission to issue a Notice of Proposed Rule Making as soon as possible.

2. This figure is based on WABZ's maximum Class A facility (6 kW). However, WABZ can not achieve 6 kW at its current location due to the three short spacings and even at 3 kW suffers from interference which significantly reduces its existing 60 dBu coverage area. Thus, this figure overestimates the existing population figure.

Respectfully submitted,

SUSQUEHANNA RADIO CORP.

New Testament translations (about 400 to date) and the linguistics institute, based in Dallas, TX, trains linguists.

JAARS, incorporated in 1963 but founded in the 1940s, serves both by providing airplanes, two-way radios, computers, purchasing, shipping, materials transportation, construction and maintenance. The organization set up shop in Waxhaw when Charlotte businessman Henderson Belk donated 600 acres south of town in 1960. The complex includes an airstrip, offices and two museums, the Museum of the Alphabet and the Mexico-Cárdenas Museum. Townsend, Wycliffe's founder, is buried on the grounds.

STALLINGS

Stallings (the first syllable rhymes with "Al," not "All") abuts the Mecklenburg County line along the U.S. 74 corridor. The town (pop. 2,350) is a quiet bedroom community with a spacious, country feeling. Two landmarks sit near each other on Stallings Road — Stallings Municipal Park and AEP Industries, which manufactures polyethylene film, tubing and sheeting.

The town is essentially built out, having had its growth spurt a couple of decades ago. You'll find sprawling ranches and affordable homes on nice-sized lots here. For new homes, look on either side of Stallings - for example, along Stevens Mill Road, Lawyers Road and Old Charlotte Highway.

INDIAN TRAIL

Indian Trail is growing fast, thanks in part to annexation. This town doubled its population to 6,000 in 1995 when it annexed land that closed the gap between it and Monroe.

Part of the appeal of that land: It includes plenty of new subdivisions. If you're interested in Indian Trail, look for new homes along and off of Old Charlotte Highway, Wesley Chapel-Stouts and Unionville-Indian Trail roads and on either side of U.S. 74. That highway also has several business and industrial parks under way or planned.

Indian Trail began as an outpost along an Indian trading trail that extended from Concord to the Waxhaw Indian settlement near present-day Waxhaw. The Central Carolina Railroad tracks laid through the area in 1874 helped make the community a distribution center for cotton and other goods. Distribution is still big business today: Indian Trail is home to the 300,000-square-foot Harris Teeter perishables warehouse, where the supermarket chain moves 20 million cases of goods each year.

This town is a mix of new construction and old buildings such as Indian Trail Presbyterian Church, a rock building constructed in 1913. Edna Love Park, operated by the Indian Trail Athletic Association, stays busy with sports leagues. Shoppers from miles around stop at the Crystal Shoppe on U.S. 74 for household items and wedding gifts. Some of those gifts probably go to couples married at the Country Chapel, a neat white-frame building just off U.S. 74.

World War II brought more changes. Camp Sutton, which opened in 1942, served as a training camp until 1944, then as a German POW camp until 1946. (Today the land is the site of Union Regional Medical Center and a large industrial area.) The years afterward saw more mechanization in farming, more industry, more economic diversification.

By the 1960s, Union County — especially its western edge — began to grow as Mecklenburg residents discovered the county's comfortable lifestyle and sought refuge from city congestion. That growth continues unabated today, and it's certain to bring other changes as it writes new chapters in Union County's history.

Indian Trail is among the fastest growing communities in North Carolina. The population increases with each year, creating more housing and businesses. Currently it stands at just over 6,000, with plans for growth to 9,000 plus.

Indian Trail is named for the trading route that ran from Petersburg, Virginia to the Waxhaw Indian settlement. Scotch-Irish and German settlers moved into the area before the American Revolution.

In 1874 the Seaboard Railroad was completed in the county, running from Charlotte to Monroe through Indian Trail. The railroad made it easier for people to get in and out of Indian Trail and made goods and services more available. The town grew into a big farming community. Residents built the first church, Indian Trail Methodist in 1901, followed by Indian Trail Presbyterian Church in 1913.

The town became incorporated in 1907, with the city limits designated as a circle one-half mile in radius from the center of the railroad tracks. In 1912 Indian Trail's population was about 300. The town continued to grow and prosper until the Great Depression. It wasn't until the 1960's that the town began again to grow rapidly. Both people and industries began to see advantages in residing outside large cities like Charlotte.

The annual 4th of July parade is held each year with a lot of community support. Friends and family join together to enjoy the parade on a day we celebrate our country's independence.

N.C./S.C. District Agricultural Fair

Celebrate Union County's agricultural heritage and have some old-fashioned fun at the fair. The fair accepts entries from Union and Anson counties, N.C., and Lancaster and Chesterfield counties, S.C. The annual Farm-City Banquet opens the extravaganza. October; old Union County Fairgrounds on Williams Road; 283-5846.

Waxhaw Antiques Shows

The Waxhaw Woman's Club sponsors a show the third weekend in February at the Belk Building and the Woman's Club; lunch available. 843-2886. The Waxhaw Antiques Dealers Association sponsor antiques shows in May and September.

Waxhaw Scottish Fair and Games

As many as 18 clans get together for music, games and fun at this annual event, which includes bagpipes competition, Scottish games, country dancing, music and booths. Last Saturday in October; Briarwood Farm on Richardson King Road; 843-3288.

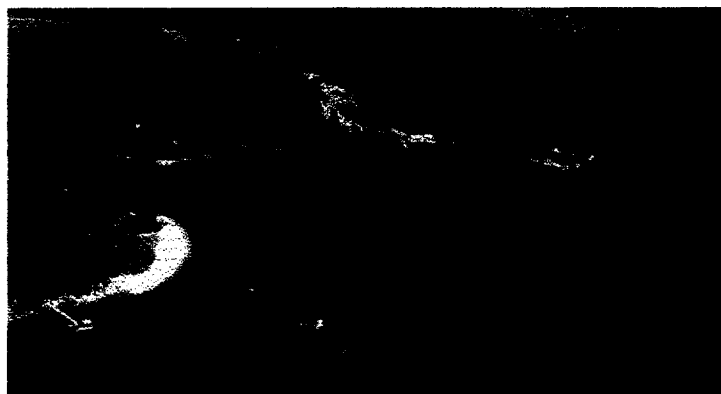

BACK TO THE TABLE OF CONTENTS**SPORTS AND RECREATION**

Whether you want to be in the game or watching the game, you'll find plenty of ways to enjoy your favorite sports in Union County.

PARKS**Cane Creek Park**

This 1,050-acre county-operated park includes a 350-acre trophy bass lake, one of only two in North Carolina. Enjoy swimming, fishing, boating, miniature golf, camping, picknicking, mountain biking, horseback riding and more.

Boat and equipment rentals available. Open daily; admission charge. 5213 Harkey Rd., Waxhaw; 843-3919.

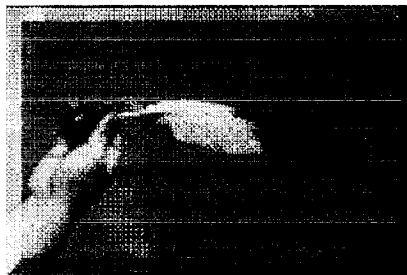

- Parks in Marshville, Stallings and Indian Trail offer playgrounds, picnic areas and ballfields for outdoors enthusiasts. Monroe Parks and Recreation provides programs, fitness classes, sports leagues and summer day camps at parks and recreation centers throughout the city.

GOLF

A highlight of the Monroe system is Monroe Municipal Golf Course and Country Club, on N.C. 601 south. Take a crack at the 6,759-yard, 18-hole course or enjoy the club's picnic area and nature trail. Union's a perfect place to play golf. Besides Monroe Country Club, the county boasts several other courses. Rolling Hills Country Club, a private course on Roosevelt Boulevard, features a 6,739-yard, 18-hole course, plus a pool, tennis courts and dining room. To sharpen your short game, visit Pebble

- Creek Par 3, on U.S. 74 in Indian Trail. This 18-hole course is open all year, with the front nine lighted May through September.

SPECIAL EVENTS

There's always something to do in Union County; arts groups, civic clubs and other organizations keep the schedule full of interesting and lively activities. We've listed a few highlights here.

Agricultural Appreciation Week

This event is organized by the N.C. Cooperative Extension Service and sponsored by businesses and organizations throughout the county. Activities include banquets featuring Union County products, school programs, entertainment and farm tours. Held in March; 283-3801.

Blooming Arts Festival

Celebrate the visual and performing arts at this festival, which includes food, music, arts and crafts. The festival is coordinated by the Union County Community Arts Council, sponsored by the business community and assisted by more than 500 volunteers. Last weekend in April; downtown Monroe and Belk-Tonawanda Park; 283-2784.

Charlotte Steeplechase

This horse-racing event, which traces its roots back to 18th-century Ireland, debuted in Union County in November 1995. Starting in April 1996, the event goes annual, with plenty of races, parties and people-watching. Admission fee (profits go to charity). Sponsored by the Charlotte Steeplechase Association at the organization's track on Gus Eubanks Road; 332-3400.

Community Arts Days

In cooperation with the Union County Community Arts Council, six Union County municipalities hold daylong celebrations of the arts: Weddington Fall Festival (fall), Indian Trail Art Day (spring), Singing in the Park (Stallings, spring), Celebrate Wingate (spring); senior citizens activities in Waxhaw (December); and Main Attraction (October) in downtown Monroe. 283-2784.

Indian Pow Wow

→ Learn more about Native American arts and culture at this event, sponsored by the Metrolina Native American Association. Activities include crafts, foods, exhibitions, dance competition and trading booths. First weekend in October; Indian Trail Elementary School; (704) 331-4818.

JAARS Day

JAARS, the technical service arm for Wycliffe Bible Translators and the Summer Institute of Linguistics, opens its facility to visitors monthly. Activities include a tour of the facilities, visits to two museums, and plane and helicopter rides. Lunch is available. Reservations required. First Saturday of the month (rescheduled if that falls on a holiday weekend); JAARS Center, Davis Road, Waxhaw; 843-6000.

Marshville Fall Festival

Spend the day enjoying vendors, music, food and games, then hit the evening street dance at this annual event, sponsored by Marshville Chamber of Commerce. Third Saturday in September; downtown Marshville; 624-3183.

organization, displays memorabilia and keeps an archive of the senator's papers. The center also sponsors a lecture series with nationally known speakers. U.S. 74, Wingate; 233-1776.

Mexico-Cárdenas Museum

This museum celebrates the relationship between the people of Mexico and their former president, Lázaro Cárdenas, and Wycliffe Bible Translators, which began working in the country in the 1930s. Displays include artifacts and artwork. Open Monday-Saturday. JAARS Center, Davis Road, Waxhaw; 843-6000.

Museum of the Alphabet

Learn how man's alphabets and languages developed at this museum, which explores ancient alphabets from around the world and discusses how Wycliffe Bible Translators develops written representations of spoken languages. Children under 12 should be accompanied by an adult. Open Monday-Saturday. JAARS Center, Davis Road, Waxhaw; 843-6000.

Rainbow Theatre

This troupe promotes minority involvement in dance, theater and music, with special emphasis on children's participation in programs. Rainbow Theatre also brings in outside performers to venues throughout Monroe. 283-8917.

Union County Community Arts Council

This organization promotes the arts in Union County by assisting and funding organizations, working with business partnerships and cosponsoring special events (see Blooming Arts Festival and Community Arts Days under Special Events). A gallery in the arts council office features changing exhibits, monthly open houses and entertainment. 120 N. Main St.; 283-2784.

Union County Players

Musicals, dramas and special shows highlight the season for this nonprofit community theater, which performs at various sites throughout Union County. A membership auxiliary, Players Partners, provides behind-the-scenes support. 289-7000.

Union County Writers Club

Published and aspiring writers get a helping hand at this organization, which serves as a sounding board and support group. 283-0764 or 283-9431.

Union Symphony Society

This society consists of two groups: the Union Symphony, a 40-member orchestra conducted by David Lowry that plays several concerts at sites throughout the county; and the Union Singers, a 35-member auditioned chorus conducted by Rev. Douglas Vancil that performs with the symphony. 289-1228.

Wingate University

This private liberal-arts university presents art exhibits, theatrical performances, concerts and recitals by students, faculty and visiting artists. All are open to the public. For a calendar of events, call the college Division of Fine Arts, 233-8038.

→ **LIBRARIES** The Union County Public Library includes a main branch in Monroe and three other branches. All libraries are connected via a computerized system, and a daily courier can ship materials from one branch to another. Hours vary; all have evening hours at least one day a week. For information, call the branches below.

Indian Trail 109 Navajo St., 821-7475

TECHNICAL EXHIBIT
IN SUPPORT OF
A PETITION FOR RULE MAKING
TO AMEND THE FM TABLE OF ALLOTMENTS
ALBEMARLE AND INDIAN TRAIL, NORTH CAROLINA

Technical Narrative

This technical narrative and associated exhibits have been prepared on behalf of FM station WABZ (herein "Petitioner") in support of a Petition for Rule Making to amend Section 73.202(b) by the reallocation of channel 265A from Albemarle, North Carolina to Indian Trail, North Carolina and the modification of the license of WABZ on channel 265A at Albemarle accordingly (BLH-3002). As the requested reallocation of channel 265A to Indian Trail is mutually exclusive with the present allotment of channel 265A at Albemarle, Petitioner invokes the provisions of Section 1.420(i).

The following is a summary of the reallocation proposal:

- The community of Indian Trail, North Carolina (1990 population 1,942) will be provided with its first local aural transmission service and Albemarle, North Carolina (1990 population 14,939) will not be deprived of its sole "existing" local service as there are two AM assignments at Albemarle, namely, WSPC, 1010 kHz and WZKY 1580 kHz.
- The proposed WABZ operation will not place a 70 dBu signal over 50% or more of the total land area or population of any Urbanized Area and, therefore, it is believed that Indian Trail warrants a first local service preference.
- The number of persons within the WABZ 1 mV/m contour will increase from 79,643 persons to 427,165 persons, and there will be a "net" increase in 1 mV/m coverage to 347,522 persons.
- The proposal will eliminate "grandfathered" short-spacings with WWSL-FM on channel 262C at High Point, North Carolina and WIFM-FM on channel 265A at

Elkin, North Carolina and will also eliminate interference being caused to WHSL-FM within an area of 8 square kilometers and containing 1,224 persons.

- The proposal will reduce a "grandfathered" short-spacing with WKXU on channel 266C at Burlington, North Carolina and will eliminate the interference being received from WKXU within an area of 103 square kilometers and containing 1,259 persons.
- No new short-spacings will be created by the instant proposal.

Proposed Change in Table of Allotments

Station WABZ is currently licensed (BLH-3002) to operate on channel 265A at Albemarle, North Carolina with an effective radiated power (ERP) of 3 kW and an antenna height above average terrain (HAAT) of 61 meters. In addition, WABZ has an outstanding construction permit to change the transmitter site, decrease ERP to 1.8 kW using a directional antenna and increase HAAT to 165 meters (BPH-900412IG). Albemarle is located in Stanly County, North Carolina and has a 1990 U.S. Census population of 14,939 persons. AM stations WSPC on 1010 kHz and WZKY on 1580 kHz are currently licensed to serve Albemarle. Therefore, adoption of the proposal will not deprive Albemarle of its sole "existing" local service.

Indian Trail, North Carolina is located in Union County and has a 1990 U.S. Census population of 1,942 persons. Indian Trail has no local FM or AM service and, therefore, Petitioner's proposal would bring first local aural broadcast service to Indian Trail.

| <u>City</u> | <u>Present</u> | <u>Proposed</u> |
|------------------------------|----------------|-----------------|
| Albemarle, North Carolina | 265A | -- |
| Indian Trail, North Carolina | -- | 265A |

Compliance With FCC Rules

The attached Figure 1A is a tabulation of required separations pertinent to use of channel 265A at Indian Trail. The reference site complies with the Commission's minimum distance separation requirements contained in Section 73.207 to all existing, authorized and proposed stations and allotments with the exception of a 28.11 kilometer short-spacing with WKXU on channel 266C at Burlington, North Carolina. This short-spacing is addressed below. Operation from the reference site will provide the requisite city grade signal to all of Indian Trail.

Figure 1B is a tabulation of required separations pertinent to use of channel 265A from the licensed WABZ site. As shown, WABZ is currently involved in a 72.54 kilometer short-spacing with WKXU on channel 266C at Burlington, a 6.88 km short-spacing with WIFM-FM on channel 265A at Elkin, North Carolina and a 21.35 kilometer short-spacing with WHSL-FM on channel 262C at High Point, North Carolina. The short-spacings with WKXU and WHSL-FM are "grandfathered" under Section 73.213(a) and the short-spacing with WIFM-FM is "grandfathered" under Section 73.213(c). The instant proposal will reduce the magnitude of the short-spacing with WKXU by 44.43 km, from 72.54 kilometers to 28.11 kilometers. Furthermore, the short-spacings with WHSL-FM and WIFM will be eliminated.

In addition, the instant proposal will eliminate existing interference between WABZ and WHSL-FM and between WABZ and WKXU. Figure 1C is a map which depicts the protected 60 dBu, F(50,50) and interfering 54 dBu, F(50,10) contours for the licensed WKXU and WABZ

operations and for the herein proposed WABZ operation.¹ As shown, there is currently overlap of the WKXU interfering 54 dBu and the licensed WABZ protected 60 dBu contours, whereas the instant proposal will not be involved in contour overlap with WKXU. Also shown is the interference area within the licensed WABZ 60 dBu contour caused by WKXU. This interference area encompasses 103 square kilometers containing 1,259 persons. Thus, the instant proposal will eliminate interference with WKXU.

Figure 1D is a map which depicts the protected 60 dBu, F(50,50) for WHSL-FM and the interfering 100 dBu, F(50,10) contour for the licensed WABZ operation. As shown, there is currently overlap of the licensed WABZ interfering 100 dBu contour and the WHSL-FM protected 60 dBu contours, whereas the instant proposal will not be involved in contour overlap with WHSL-FM. Also shown is the interference area within the WHSL-FM 60 dBu contour caused by the licensed WABZ operation. This interference area encompasses 8 square kilometers containing 1,224 persons. Thus, the instant proposal will eliminate interference with WHSL-FM.

Therefore, the instant proposal appears to comply with past FCC precedents in reallocation proposals involving "grandfathered" short-spacings as (1) no new short-spacings are created, (2) no existing short-spacings are exacerbated and (3) interference between WABZ and WKXU and between WABZ and WHSL-FM will be eliminated.²

¹ It is noted that the locations of the protected and interfering contours for the proposed WABZ operation were determined using both the uniform and actual terrain methods.

² See Report and Order in MM Docket No. 90-138 (DA 92-1203)

Figure 2 is a map showing the area to locate channel 265A at Indian Trail in compliance with the Commission's minimum distance separation requirements and city coverage requirements based on maximum Class A facilities (ERP 6 kW/HAAT 100 m).

Pursuant to Section 1.420(i), the Commission will consider petitions to modify the license/construction permit of an FM station to specify a new community if the proposed allotment would be mutually exclusive with the present assignment. As the entire area to locate for channel 265A at Indian Trail depicted on Figure 2 would be short-spaced to the both the licensed and authorized WABZ channel 265A operations, the new allotment is mutually exclusive with the existing allotment.

Gain and Loss Areas and Available Aural Services

Figure 3, attached, is a map showing the FM 1 mV/m primary service contours for the licensed WABZ operation on channel 265A at Albemarle and the proposed WABZ operation on channel 265A at Indian Trail. Maximum facilities and uniform terrain were used to determine the contour locations. The 1 mV/m "gain" and "loss" areas are also indicated.

Also shown on Figure 3 are the AM and FM reception services available to the areas within the authorized and proposed WABZ 1 mV/m contours.³ Only those AM and FM services necessary to provide at least five (5) fulltime aural services to the gain and loss areas have been shown on Figure 3. The letters identify the AM and

³The determination of available reception services was based on the criteria set forth in footnote 1 of the Notice of Proposed Rule Making in MM Docket No. 96-219 (DA 96-1774; adopted October 25, 1996, released November 1, 1996).

FM service contours of stations tabulated on Figure 4. As indicated, there are at least five other AM and FM services available to the gain and loss areas.

Population and Area within Gain and Loss Areas

Figure 5 contains a tabulation of the land areas and estimated populations within the 1 mV/m FM primary service contours for the existing WABZ operation on channel 265A at Albemarle and the proposed WABZ operation on channel 265A at Indian Trail. Also tabulated are the gain, loss and "net" gain areas and the results of the reception service analyses for these areas. Adoption of the Petitioner's proposal will increase the number of persons within the WABZ 1 mV/m contour from 79,643 persons to 427,165 persons, and there will be a "net" increase in 1 mV/m coverage to 347,522 persons.

Charlotte City and Urbanized Area Coverage

The following provides a breakdown of the proposed 70 dBu coverage of the total population and area within the Charlotte Urbanized Area and Charlotte city limits.

| | Population (1990) | Area (sq. km) |
|--------------------------|-------------------|---------------|
| Charlotte Urbanized Area | 455,597 | 627 |
| Within 70 dBu | 38,809 | 115 |
| Percentage of Total | 9% | 18% |
| Charlotte City | 395,934 | 452 |
| Within 70 dBu | 5,633 | 8 |
| Percentage of Total | 1% | 2% |

Indian Trail, North Carolina is located within the Charlotte Urbanized Area as defined by the 1990 U.S. Census. However, the proposed 70 dBu contour will encompass less than 50% of the total land area and population within the Charlotte Urbanized Area.

Furthermore, the distance between the Charlotte reference point (N35°13'37", W80°50'36") and the Indian Trail reference point (N35°04'36", W80°40'10") is 23 kilometers. Therefore, it is believed that the proposal warrants a first local service at Indian Trail.⁴

FM 1 mV/m Coverage Contours

The FM predicted coverage contours were calculated in accordance with the provisions of Section 73.313, except that uniform terrain was presumed in all directions.

Population and Area

The population within each FM primary service contour (1 mV/m) and each gain and loss area was calculated using a computer program that utilizes the 1990 U.S. Census database of "population centroids". The program adds the populations of those U.S. Census designated areas whose centroid was within each service area. The area within each FM primary service contour was calculated using a root mean square algorithm.

Conclusion

The reallocation of channel 265A from Albemarle to Indian Trail, North Carolina can be accomplished in compliance with all applicable Commission Rules. The proposal will result in a first local broadcast service to Indian Trail. The proposal would not deprive Albemarle of local aural broadcast service. The number of persons

⁴ See paragraph 11 of the Report and Order in MM Docket No. 91-25 (adopted: September 8, 1995,; released: September 19, 1995,; DA 95-1938).

within the WABZ 1 mV/m contour will increase from 79,643 persons to 427,165 persons, and there will be a "net" increase in 1 mV/m coverage to 347,522 persons.

The proposal will reduce the "grandfathered" short-spacing with WKXU on channel 266C at Burlington, eliminate "grandfathered" short-spacings with WHSL-FM on channel 262C at High Point and WIFM-FM on channel 265A at Elkin, all in North Carolina and will not create any new short-spacings. The proposal will eliminate existing interference between WABZ and WKXU and between WABZ and WHSL-FM. Therefore, Petitioner requests the reallocation of channel 265A from Albemarle to Indian Trail and the modification of the Petitioner's license to specify operation on channel 265A at Indian Trail.

** End of separation study for channel 265A **

¹ Requested reallocation of channel 265A to Indian Trail, North Carolina is mutually exclusive with the Petitioner's current channel 265A allotment at Albemarle, North Carolina.

² Grandfathered short-spacing under Section 73.213(a). Proposal appears to comply with past FCC precedents in reallocation proposals involving such short-spacings as (1) no new short-spacings are created, (2) no existing short-spacings are exacerbated and (3) the potential for interference between WKXU and WABZ is eliminated. See Report and Order in MM Docket No. 90-138 (DA 92-1203), Technical Narrative and Figure 1C.

³ Complies with the minimum distance separation requirements of Section 73.207 when rounded to the nearest whole kilometer pursuant to Section 73.208.

Tabulation of Areas and Populations
Within 1 mV/m Coverage Contours

I. POPULATION AND AREA WITHIN 1 MV/M CONTOURS

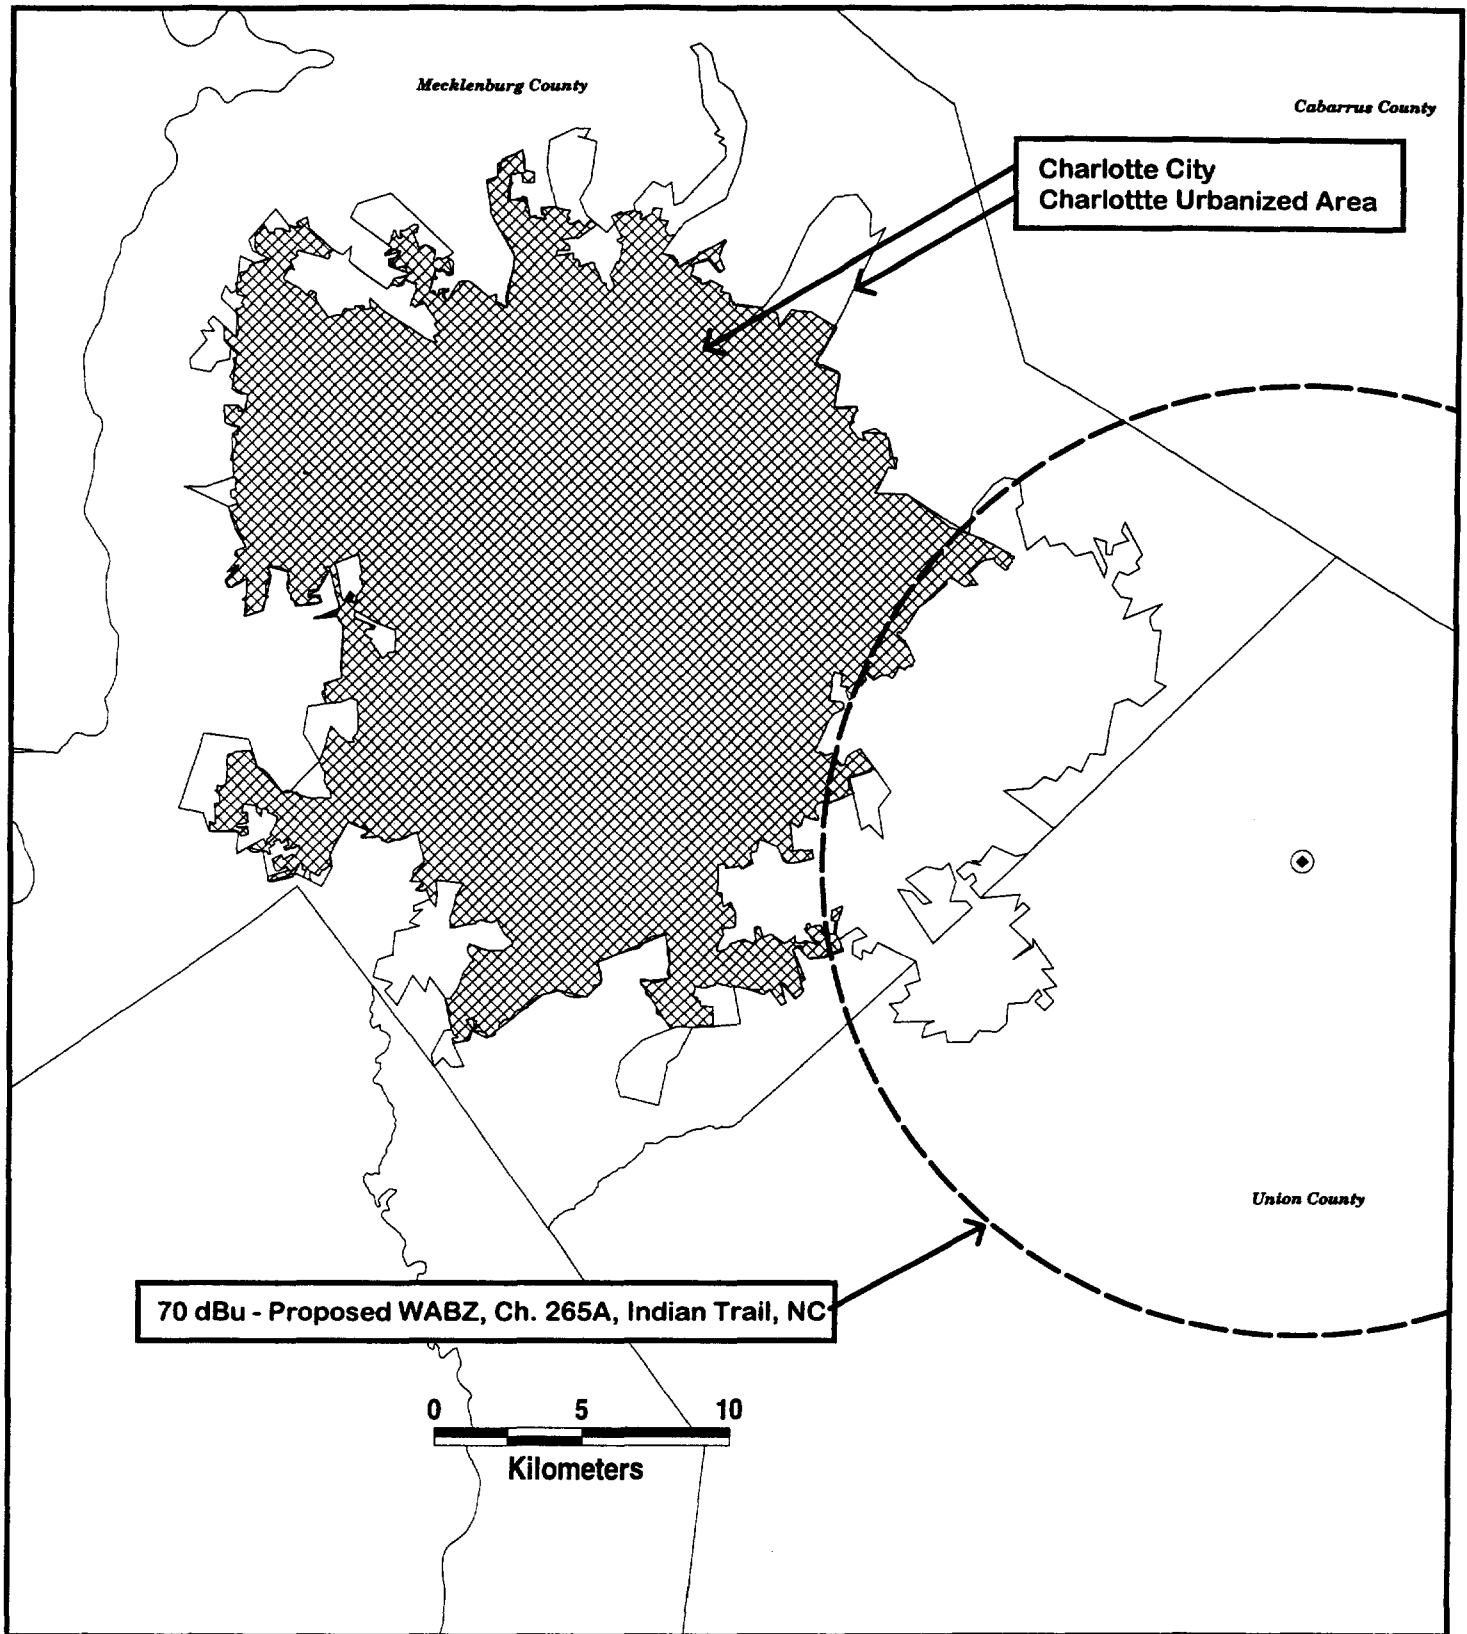

| Facilities | Within 1 mV/m Contour ¹ | |
|---|------------------------------------|-------------------------|
| | Population (1990) | Area (km ²) |
| Existing WABZ, Ch. 265A Albemarle, NC | 79,643 | 2,515 |
| Proposed WABZ, Ch. 265A Indian Trail, NC | 427,165 | 2,515 |

II. POPULATION AND AREA WITHIN GAIN AND LOSS AREAS

| Area | Within 1 mV/m Contour ¹ | |
|-----------------|------------------------------------|-------------------------|
| | Population (1990) | Area (km ²) |
| Gain Area | 416,477 | 268 |
| Loss Area | 68,955 | 268 |
| "Net" Gain Area | 347,522 | 0 |

¹ Distances to 1 mV/m contours based on maximum facilities for the class and uniform terrain. Population calculated using a computer program that utilizes the 1990 U.S. Census database of "population centroids". The program adds the populations of those U.S. Census designated areas whose centroid was within each service area. The land areas were calculated using a root mean square algorithm.
